## **BX-V157** Voltage Protector

### **■Features**

- ●Over/Under Voltage Protection: When the voltage exceeds the limit, it will automatically cut off the power to prevent the electrical appliances being damaged by the too low or too high voltage.
- Automatic Voltage Identification: When it is identified 120V, it will work at the protection range of 120V--90V~165V, when it is identified 220V, it will work at the protection range of 220V--165V~260V automatically ,universal product.
- •Rotated Plug: The direction of plug can be adjusted to meet your needs.
- Flame Retardant Material: Be able to reach the experimental standards of level test of UL94-5VA...

#### **■**Introduction

BX-V157 is hot sold voltage protector in South America. It's used for TV, PC, refrigerator and home appliance which power is less than 6600W.

## **■**Specification

• Working voltage: 120V/220VAC/50HZ-60HZ

Under voltage: 90-140V(120VAC)
Over voltage: 165-260V(220VAC)

● Working current: 15A 9800BTU/19600BTU

• Max Power: 1800W/3600W

Delay time: 15s/30s/3mins (switch by button)

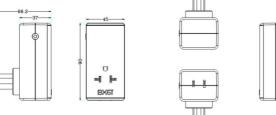

• Temperature:  $-5^{\circ}\text{C} \sim +55^{\circ}\text{C}$ 

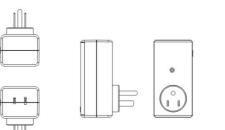

● Weight: 96g

• Size: 45\*66\*90mm

Material: Flame retardant PC

Package:

# **■**Warning

- \*The total power of connected electrical equipment shall not exceed the rated power.
- \* Do not use this product in damp or not ventilated environment.
- \* Non-professionals do not open, change, repair the product.
- \* Poor connection of the front terminal or poor connection of the plug may cause a danger.
