

■BX-V070-120V

Delay time
switching
3Min/5S

1. Delay time indicator light
2. Under voltage protection indicator light
3. Delay status indicator light
4. Over voltage protection indicator light
5. Warranty status indicator light
6. Output indicator light

**American
standard
5-15 with
grounding**

■characteristics

- Over/under voltage protector: When the voltage exceeds the limit, it will automatically cut off the power to prevent the electrical appliances being damaged by the too low or too high voltage.
- Adjustable threaded bolt: Users can adjust the high/low voltage and delay time to meet their needs.
- Visual window: real-time display of product working status, eye-catching.
- Flame retardant material: Be able to reach the experimental standards of level test of UL94-5VA..

■Introduce

This product is a hot selling series voltage protector in South American market. It is suitable for air conditioning, water heater and other high-power equipment with rated power less than 2400W.

■Specification

- Working voltage/Frequency: 120VAC/50HZ-60HZ
- Under voltage: 90VAC
- Over voltage: 140VAC
- working current: 15A
- Maximum power: 1800W
- Delay Time: 3min/5s
- Warranty time: 1 year
- work environment: -5°C~+55°C
- weight: 160g
- Product size: 77*36*123mm
- Shell material: PC
- Outer box size: 48*47*37cm

■Warning

- ※The total power of connected electrical equipment shall not exceed the rated power.
- ※Do not use this product in damp or not ventilated environment.
- ※Non-professionals do not open, change, repair the product.
- ※Poor connection of the front terminal or poor connection of the plug may cause a danger.
- ※Prohibition of combustion and keep away from fire.
