Voltage protector

Model： BX-V021

Introduce

BX-V021 is a family-style voltage protector. Applicable to electrical appliances such as televisions, computers, refrigerators, etc. whose power is less than 2860W.

V021-EU

V021-UK

Specification

Model	V021-EU	V021-UK
Working voltage/Frequency	220VAC/50-60HZ	
Under voltage	165VAC	
Over voltage	260VAC	
Max working power and current	2200W/10A	2860W/13A
Delay time	5S/180S	
Working environment	-10℃～+55℃	
Size	84*46. 8*35mm	
Shell material	ABS	

5 LED lights:

1. Output (green LED)

2. Delay (yellow LED)

3. Under voltage (red LED)

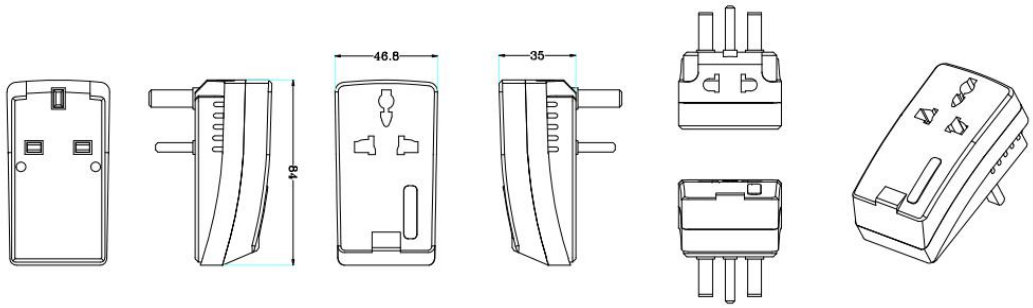
4. Over voltage (red LED)

5. Warranty (white LED)

Delay value switching key: 5S/180S

Features

1. Over/under voltage: When the voltage exceeds the limit, the power supply is automatically cut off to prevent damage to electrical appliances caused by over-voltage or under-voltage.
2. Adjustable delay time: The user can adjust the delay time according to the actual use environment.
3. Phosphor copper copper parts: excellent electrical conductivity, corrosion resistance and wear resistance.



Warning

※The total power of the connected electrical equipment shall not exceed the rated power.

※This product cannot be used in a humid, non-ventilated environment.

※Non-professionals are not allowed to open, modify, repair or maintain this product.

※ Poor contact at the front end or poor contact at the insert may cause danger.

※ It is forbidden to burn or keep away from fire.
