

BXST

Voltage protector

Model: BX-V157

Introduce

BX-V157 series products are household plug and socket voltage protectors that are popular in South America. Applicable to electrical appliances such as televisions, computers, refrigerators, etc. whose power is less than 1200W (120V)/2200W (220V).

BX-V157-120V

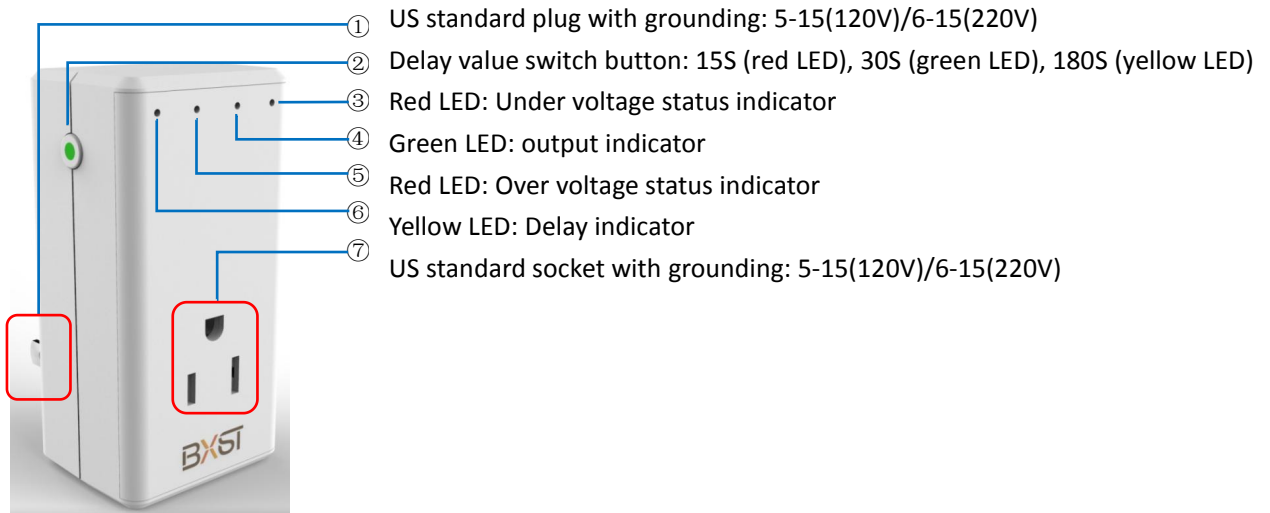

BX-V157-220V

Specification

Model	V157	V157
Working voltage/Frequency	120VAC/50HZ-60HZ	220VAC/50HZ/60HZ
Under voltage	90VAC	165VAC
Over voltage	140VAC	260VAC
Max working power and current	1200W/10A	2200W/10A
Delay time	15S/30S/180S	
Working environment	-10°C~+65°C	
Weight	--	
Size	70.2*45.2*32.8mm	
Shell material	PC	

Product Features

1. Over/under voltage: When the voltage exceeds the limit, the power supply is automatically cut off to prevent damage to electrical appliances caused by over-voltage or under-voltage.
2. Adjustable delay value: Users can change the delay value according to actual usage.
3. Phosphor copper copper parts: excellent electrical conductivity, corrosion resistance and wear resistance.
4. Shell flame retardant: in line with UL94-5VA level testing and experiment standards.

Warning

- ※The total power of the connected electrical equipment shall not exceed the rated power.
- ※This product cannot be used in a humid, non-ventilated environment.
- ※Non-professionals are not allowed to open, modify, repair or maintain this product.
- ※ Poor contact at the front end or poor contact at the insert may cause danger.
- ※ It is forbidden to burn or keep away from fire.
